

Abdulkadir Shaikh

Full Stack Developer (MERN)

102, G karishma Garden, Navsari | akadir22086@gmail.com | [GitHub](#) | [LinkedIn](#) | [Monkeytype](#)

Summary

Full Stack Developer (MERN) with expertise creating scalable web applications with performance-optimized interfaces, RESTful APIs, and secure authentication. competent in Express, MongoDB, React.js, and Node.js with a strong emphasis on user-centric design and clean architecture. demonstrated capacity to transform concepts into dependable digital products with effective data handling and maintainable code.

Projects

Portyours: A Complete Stack Portfolio Creator

- Created a full-stack MERN platform that allows us to create customizable portfolio, dynamic content editing, and user authentication.
- Enhanced user workflow efficiency by facilitating UI/UX integration and as backend lead and real-time content updates.

DSA Vault: Problem Tracking Web Application

- Created a web application based on MERN that uses tag-based filters and structured filtering to track and arrange solved coding problems.
- Optimized filtering and progress tracking features increase the effectiveness of problem reviews.

BillBook: MERN Billing System

- Created a scalable billing system for product management, client record storage, and invoice generation.
 - Utilized Express.js APIs and MongoDB schema optimization to guarantee safe and effective database operations.
-
